LAMINEX® AQUAPANEL®

Laminex® Aquapanel® is a melamine surfaced high pressure decorative laminate specifically designed for a wide variety of vertical wall applications. The innovative strong and durable 2.7mm thick sheets feature a black core allowing the distinctive edge to be exposed in applications.

Whether you want to create a simple backdrop or spruce up a tired bathroom, Laminex Aquapanel can create a stylish yet functional wall solution. Laminex Aquapanel is a wet or dry area wall panel that is aesthetically pleasing and immensely practical. Applications include wall panelling, feature walls, partitioning, bathroom and shower recess panelling, kitchen splashbacks and laundry walls. Because Laminex Aquapanel is non-porous and grout free, it can be easily cleaned in both domestic and commercial environments. Laminex Aquapanel is available in a selection of contemporary colours and finishes with colour matched aluminium jointers.

LAMINEX AQUAPANEL ALUMINIUM JOINTERS

Five aluminium jointer profiles have been developed by Laminex New Zealand to stylishly integrate joins and minimise areas where mould and grime could gather. Each profile is available in 5 colours so you'll find the perfect match for your choice of Laminex Aquapanel.

Laminex New Zealand®. A division of FLETCHER BUILDING PRODUCTS LTD. The colours of the photographs depicted in this brochure are as close to the Laminex® Aquapanel® range as photographic lighting and modern printing processes allow, when finalising colour selections please use a physical sample. Note: Colour/finish combinations are subject to availability. Colour/finishes shown are available at the time of publication, but may be withdrawn. All Laminex Aquapanel products are marketed, and distributed by Laminex New Zealand. Dark colours and gloss finishes require more care and maintenance than light-coloured and lower-gloss surfaces. Laminex New Zealand recommends the use of laminate cleaning products for dark colours and gloss finishes, please visit www.laminex.co.nz for specific care and cleaning information. Please note that in certain lights or from different angles wipe down marks may be visible. Laminex Aquapanel is no different than any other material in that darker colours will always show scratches and superficial wear and tear more readily than lighter colours. Laminex Aquapanel should be protected from strong, direct sunlight as continuous exposure may cause discolouration or fading to the surface over time. Please obtain a copy of the terms and conditions of the Laminex 7 year limited warranty from Laminex New Zealand® or visit our website. This warranty is in addition to any rights that may exist under the Consumer Guarantees Act (1993).
