## MADE-TO-ORDER GUIDELINES

Melteca finishes are pressed into the surface during the manufacturing process. When ordering there is a 12pm closure for made-to-order production schedules. At the time of ordering, Customer Services will supply a new dispatch date in the unlikely occurrence that the schedule is full. If you happen to choose a décor / substrate combination that has not been made, then some additional time for set up will be required. A dispatch date will be confirmed at time of order and verified on the Laminex New Zealand Order Confirmation.
